THE TRIBUNE

PROSPECTUS.

The XXth Volume of THE WEEKLY TRIBUNE commenced with the issue of Sept. 1. During the past year THE TRIBUNE has been obliged to devote quite a large proportion of its space to Politics, but we shall soon be able to feeego Political discussion almost entirely, for months, if not for years, and devote nearly all our columns to subjects of less intense, but more abiding interest. Among these, we mean to pay expecial attention by

more shiding interest. Among these, we mean it per expension to 1.—EDUCATION.—The whole subject of Education, both Popular and General, will be discussed in our columns throughout the year libit, and we hope to subth in that discussion some of the profoundest thinkers and the ablest instructors in our country. It is at once our hope and our recoper that the cause of Education shall receive an impetus from the exertions of THE TRIBUNE in its behalf during the year 1851.

11.—AGRICULTURE.—We have been compelled to restrict our elucidations of this great interest throughout 1850, and shall endeavor to stone therefor in 1851. Whatever discovery, deduction, demonstration, is calculated to render the reward of labor devoted to cultivation mere ample or more certain, shall receive country and full attention.

devoted to cultivation more ampies or interestry, against prompt and full attention.

111.—MANUFACTURES, &c.—We half every invention of enterprise whereby American Capital and Labor are attracted to and advantageously employed in any department of Manufacturing or Mechanical Industry as a real countibution to the Public West, insuring amplet, steader, more convenient, more remainerating markets to the Farmer, with fuller employment ambetter wages to the Laborer. The Progress of Mining, Iron making, Steel-making, Cloth-weaving, &c., &c., in our country and the world, shall be watched and reported by us with a seminat and active sympathy.

and the works, some the watchest and reported by de with a serior at and active sympathy.

FOREELON AFFALES.—We employ the best correspond ents in London, Paris, Turin, Berlin, and other European capitals, to trainmit us early and accurate advices of the great change there silently but certainly preparing. In spite of the pressure of Domestic Politics, our news from the Old World is now warled and ample, but we shall have to render it more perfect during the eventful vers tout before us.

of Demestic. Indeed, the set of render it more perfect during the eventful year just before us.

V.—HOME NEWS.—We employ regular paid correspondents in California, at the Isthmus of Darien, in the Rocky Mountain Gold Region, and wherever else they soon requisite. From the more accessible portions of our own country, we derive our information mainly from the multifarious correspondents of the Associated Frees, from our exchanges, and the occasional letters of intelligent friends. We aim to print the cheapest general newspayer, with the fullest and most authoritic summary of useful intelligence, that is anywhere afforded. Hoping to "make each day a critic on the last," and print a better and better paper from year to year, as our means are steadily enlarged through the generous congression of our many well wishers, we solicit and shall labor to deserve a nonlineance of public favor.

CITY of NEW-YORK.—DEPARTMENT of

FINANCE, BUREAU of ARREARS, August 21, 1980.

—Corporation Notice.—Sale of Property for Unpaid Assessments.—Public notice is hereby given that a sale of property for unpaid Assessments on Real Estate, for opening, widening, and extending sundry streets and avenues, will take place at public auction, at the City Hall, in the City of New-York, on WED-AE-SDAY, the Fifth day of December next, at twelve o'clock at noon of that day, and he continued from day to day until the whole shall be sold, and that the detailed statement of the assessments unpaid and the property to be sold is published in The New-Yerk Commercial Advertiser, a daily newspaper printed and published in the City of New-York.

By order of the Controller.

JOSEPH C. PINCKNEY, Clerk of Arrears.

CROTON AUGUSTET DEPARTMENT, Nov. 26, 1889.

TO THE PUBLIC.—The public is notified that the annual examination and repair of the Aqueduct will take place during the ensuing week; that for this purpose the water gates at Croton Dam will be closed on TUESDAY, the this of December, and remain closed until the repairs are completed. During this period the city will, of necessity, depend alone on the reservoirs within its limits for its daily supply. This course is usual every year, but owing to the increased consumption and waste of the present year, and the obstacles which the Board have met in their arrangements for a proportionate additional supply, the quantity of water now in the reservoirs is less than it has ever been at the commencement of the annual repairs.

The public therefore, is argently requested to svoid all unnecessary waste, and for the present to be as economical in the use of water for domestic and other purposes as possible.

#### CONSTIPATION OR COSTIVENESS.

CONSTITATION OR COSTIVENESS.

No one of the "many ills desh is helt to" is so prevalent, so little understood, and so much neglected as Costiveness. Others originating in carelessness, or seedentary habits, it is required as a slight disorder of too little consequence to excite sarriety, while in reality it is the precursor and companion of many of the most fatal and dangerous diseased, and unless early credicated it will bring the sufferer to an utimely grave. Among the lighter evide of which costiveness is the natual attendant are Headenbe, Colie, Rheumatism, Foul Breath, Files, and others of like nature, while a long train of frightful diseases such as Maignant Fevera, Abcesses, Dysentery, Diarries, Dysepela, Apoplexy, Epilopey, Paralysia, Hysteria, Hypochondrissis, Melancholy and Insanity, first indicate their presence in the system by this alarming symptom. Not unfrquently the diseases unmed originate in Coostippiton, but take on an independent existence unless the cases is eradicated in an early stage. From all these considerations it follows that the disorder should receive immediate attention whenever it occurs, and no person should neglect to get a best of Cephalic Pills on the first appearance of the complaints, as their timely use will expel the insideous approaches of disease and destroy this dangerous foe to human life.
